

INFATS PROCEEDINGS

**The 4th International Forum of
Automotive Traffic Safety**

October 15-17, 2005, Changsha, China

INFATS PROCEEDINGS

**The 4th International Forum of
Automotive Traffic Safety**

October 15-17, 2005, Changsha, China

INFATS Secretariat

Hunan University, College of Mechanical and Automotive Engineering,
410082 Changsha, P.R.China

Contact: Prof. CAO Libo, ZHANG Weigang,

Tel: +86-731 8823715, Fax: +86-731 8821445

E-mail: INFATS@vip.163.com Website: <http://www.infats.org>

Acknowledgement

The INFATS organizer would like to thank for the following sponsors:

Hunan University
Chang Feng (Group) Co., Ltd
Shanghai Automobile Industry (Group) General Cooperation (SAIC)
Chery Automobile
Pan Asia Technical Automotive Center (PATAC)

LOCAL ORGANIZER

The forum will be organized by Hunan University and Automobile Industry

Chairman: ZHONG Zhihua

Co-Chairman: ZHAO Hang

Members: (in alphabetic order)

Han Shaochang, Zuo Quanwen, Li Mengren, Hunan University, China

HE Siqing Vice Director, R & D Centre of Chang Feng (Group) Co.,Ltd, China

HUANG Jiateng, Vice Director, Science & Technology Dept of Dongfeng Motor Corporation, China

LI Jun, Director, R & D Centre of Faw, China

WEI Yanqin, General Manager, Shanghai Automobile Industry (Group) General Cooperation (SAIC.), China

XU Min, President, Chery Automobile Engineering Research Institute, China

ZHAO Hang, Director, China Automotive Technology & Research Center, China

ZHONG Zhihua, President of Hunan University, China

ZHU Ronghua, Vice General Manager & Chief Engineer Chongqing Changan Automobile Co.,Ltd, China

ORGANIZATION COMMITTEE

Hunan University, China

Third Military Medical University, China

Jilin University, China

Nagoya University, Japan

Tsinghua University, China

Shanghai Jiao Tong University, China

Chalmers University of Technology, Sweden

Université Louis Pasteur(ULP), France

Hunan Institute of Automotive Engineering, China

Pan Asia Technical Automotive Center (PATAC), China

TNO Automotive, Crash Safety Center, the Netherlands

China Automotive Technology and Research Center

Shanghai Automobile Industry (Group) General

Cooperation (SAIC.), China

Dongfeng Automobile (Group) Corporation, China

The First Automobile (Group) Corporation, China

SAIC-Wuling Automobile Co. Ltd, China

Hunan Chang Feng (Group) Corporation, LTD, China

ACADEMIC COMMITTEE

Chairman: WANG Zhengguo

Co-Chairman: YANG Jikuang

Members: (in alphabetic order)

CAO Libo, Prof., Hunan University, China

FILDES Brian, Prof. Monash University, Australia

GU Lei, Vice President, Chery Automobile Engineering Research Institute, China

GUO Konghui, Prof., Academician, Jilin University, Hunan University, China

HOU Fei, Senior Researcher, Pan Asia Technical Automotive Center (PATAC), Shanghai, China

HUANG Shilin, Prof., Tsinghua University, China

JIN Xianlong, Prof., Shanghai Jiao Tong University, China

KAJZER Janusz, Prof., Warsaw University of Technology, Poland

LI Guangyao, Prof., Hunan University, China

LIN Zhongqin, Prof., Shanghai Jiao Tong University, China

LOVSUND Per, Prof., Chalmers University of Technology, Sweden

MCLEAN Jack, Prof. Adelaide University, Australia

MIZUNO Koji, Prof., Nagoya University, Japan

OTTE Dietmar, Prof. Medical University Hannover, Germany

RUAN Jesse, Dr., FORD Motor Company, USA, Prof.

Tianjin University of Science & Technology, China

SVENSSON Mats, Prof., Chalmers University of Technology, Sweden

WANG Zhengguo, Prof., Academician, Third Military Medical University, China

WILLINGER Remy, Professor, Strasbourg University, France

WISMANS Jac, Prof., TNO Automotive, The Netherlands, Hunan University, China

YANG Jikuang, Prof., Chalmers University of Technology, Sweden, Hunan University, China

YIN Zhiyong, Prof. Third Military Medical University, China

ZHONG Zhihua, Prof., Hunan University, China

ZHOU Qing, Prof., Tsinghua University, China

ZHU Xichan, Prof., Tongji University, China

TABLE OF CONTENTS

SESSION I—VEHICLE TRAFFIC ACCIDENTS

Side Impact Crashes and Countermeasures	1
<i>FILDES Brian¹, Fitzharri Michael¹, Logan David ¹, Gable Hampton Clay²</i>	
Possibilities and Limitations of Injury Protection of Vulnerable Road Users based on In-Depth Accident Study	10
<i>OTTE Dietmar</i>	
Head Injury Causation and Characteristics in Motorcycle Riders	25
<i>SCHULLER E., WEISSMAHR J., OTTE D., DOYLE D.</i>	
Statistics Platform on Human-vehicle Contact Characteristics of Car to Pedestrian Accidents	35
<i>YUAN Quan, LI Yibing, ZHOU Qing</i>	
Comparison of Rollover Crash Characteristics of Passenger Cars and Sport Utility Vehicles	41
<i>Hu Yuanzhi, Hassan A.M., GUO Rong , Sturgess Clive N.</i>	
Traffic Accident Reconstruction and Authenticity Analysis	51
<i>ZHANG Guanjun, CAO Libo, XU Wei, LU Yong</i>	
Road traffic accident data collection and analysis for road safety research	58
<i>GUO Rong, HASSAN A.H., HU Yuanzhi, STURGESS C.E.N.</i>	

SESSION II—INJURY BIOMECHANICS

Human Head FE Modeling: Improvement of Skull Geometry and Brain Constitutive Laws	68
<i>DECK C., NICOLLE S., WILLINGER R</i>	
Validation of Human Pedestrian Models Using Laboratory Data as well as Accident Reconstruction	82
<i>Lange R. de, Happee R., Liu X.J,</i>	
HEAD-NECK KINEMATICS DURING CAR IMPACT IN MULTI-PLANES	83
<i>TEO Eechon, ZHANG Qinghang</i>	
A Parameter Study on the Knee Injuries in Car-Pedestrian Impacts	87
<i>WEI Haiyan, CAO Libo</i>	
Development of a Traffic Injury Testing Platform Suitable for Small Animals	93
<i>YIN Zhiyong, WANG Zhengguo, ZHAO Hui</i>	
A Study on Motorcyclist Ejection Injury Using Biological Subjects	94
<i>CHEN Haibin, CHENG Xuemei, ZHANG Bo, HANG Jianjin, NING Xin, LIU Dawei, YIN Zhiyong, LI Xiaoyan, WANG Zhengguo</i>	
The Experimental Study on the Injury Model of Motorcycle-Pedestrian Impact	100
<i>HANG Jianjin, CHEN Haibin, YANG Guangyu, NING Xin, YIN Zhiyong, LI Xiaoyan, LIU Dawei, ZHANG Bo, WANG Zhengguo</i>	

SESSION III—VEHICLE CRASHWORTHINESS

Computational Robust Design Methods For Vehicle Crash Safety	106
<i>GU Lei, XU Min, QI Guojun, GAO Xinhua, XU Liwei, XU Youzhong</i>	

Shell Element Convergence Behavior In Crashworthiness Analysis With Reduced Thickness	118
<i>WU Shen R., SAHA Nripen</i>	
Frontal Impact Test Analysis of Chery's Sedan	128
<i>Fang Kehong, Xia Zhihua, Xu Liwei, Dong Ruiqiang, Luo Chao, Gu Lei</i>	
Dismantling a vehicle to developing a Finite vehicle model used to test roadside safety facility	134
<i>GAO Shuide, ZHANG Ying, ZHANG Shaoli, ZHANG Fan, ZHOU Qing</i>	
Study on Computer Simulation of Vehicle Side Impact	140
<i>LUO Chao, WANG Liangping, XU Liwei, DONG Ruiqiang, FANG Kehong, YANG Huakai</i>	
Car Crashworthiness in Side Pole Impact and Side MDB Impact	146
<i>WANG Dazhi, DONG Guang, ZHANG Jinhuan, HUANG Shilin</i>	
Fast Fine Simulation for Side Crashworthiness of a Passenger Car	152
<i>LI Hongjian, HU Ping, LIU Jie, PAN Zuofeng, TANG Hongbin, QIU Shaobo</i>	
Study on the 30⁰ Oblique and 40 % Offset Deformable Barrier Impact Crashworthiness of Minibus	157
<i>ZHANG Junyuan, WEI Yifan, ZHANG Jianwei, LIN Yi</i>	
Finite Element Modeling of Impact between Bus and Roadside Guardrail	163
<i>ZHANG Fan, WANG Dazhi, ZHOU Qing, ZHANG Jinhuan, WANG Chengbiao, ZHANG Ying³, BAI Shufeng³, LIANG Yaping³</i>	
Study on Crashworthiness and Lightweight Design of Automotive Front Side Rail Based on Response Surface Method	171
<i>ZHANG Yu, ZHU Ping, CHEN Guanlong, LIN Zhongqin</i>	
Study on Body Lightweight Design on Safety and Economy Car	180
<i>XU Youzhong, GAO Xinhua, GU Lei, WANG Jian, FANG Kehong</i>	
Parallel Computing and Performance Study of Vehicle Crash Safety Numerical Simulation	188
<i>QI Wenguo, JIN Xianlong, ZHANG Xiaoyun</i>	

SESSION IV-VEHICLE PASSIVE SAFETY

Automobile Restraint Effectiveness	197
<i>Douglas Clay, Fildes Brian</i>	
Side Impact Systems Integration	212
<i>Bosma Freerk, Oorschot Eric van, Unger Michiel, Teulings Marijn, Happee Riender</i>	
A Preliminary Study of Responses of 6YO Child Occupant in Frontal Impacts with and without CRS	218
<i>YANG Xingmei, YANG Jikuang</i>	
Research on Occupant Restraint System in High Speed Frontal Impacts	226
<i>LU Yong, CAO Libo</i>	
Neck Responses and Injury Risk Reduction of Car Occupant in Frontal and Rear End Impacts	232
<i>XIAO Zhi, YANG Jikuang</i>	

SESSION V-SHORTER PRESENTATION

Computer Simulation of the full frontal Impact in Vehicle Structure Design	239
<i>DONG Ruiqiang, XU Liwei, LUO Chao, FANG Kehong, GAO Yongli</i>	
Finite Element Model Conversion from PAM-CRASH into LS-DYNA and Validation	244
<i>DONG Guang, WANG DaZhi, ZHANG Jinhuan, HUANG Shilin</i>	
Simulation Study of Energy Absorbing Square Column for Vehicle Crash Test	251
<i>BAI Zhonghao, LIU Yonghua, CAO Libo, ZHANG Yong</i>	

A Study of the Influence of Lateral Rigidity of Passenger Car on Occupant injuries in Side Impact	258
<i>WANG Yuqin, CAO Libo</i>	
Research of an Active Type of Energy-Absorbing Equipment in Vehicle Collision	264
<i>SUN Chuangfan, CAO Libo</i>	
Immune Evolutionary Control Strategy for Vehicle Active Safety	271
<i>Song Xiaolin, Yin Zhihong, Yu Dejie</i>	
System of Hardware-in-the-Loop Simulation (HILS) Applied to Yaw Velocity Based on ADSL Driving Simulator	278
<i>Guo Kong-hui, Song Xiao-lin, LiI Nen, Yi Gao</i>	
Effect of the Footwell Design Parameters on Driver Lower Extremity Injuries in Frontal Impacts and Countermeasures	283
<i>CHEN Huipeng, YANG Jikuang</i>	
INFATS SEMINAR – IN-DEPTH ACCIDENT ANALYSIS	
Road Traffic Crash and Injury	291
<i>Lecturer: Prof. WANG Zhengguo</i>	
The Benefits of In-Depth Crash Data in Crash and Injury Prevention	298
<i>Lecturer: Prof. FILDES Brian</i>	

SESSION I-VEHICLE TRAFFIC ACCIDENTS

SESSION II-INJURY BIOMECHANICS

SESSION III-VEHICLE CRASHWORTHINESS

SESSION IV–VEHICLE PASSIVE SAFETY

**SESSION V–SHORTER
PRESENTATION**

**INFATS SEMINAR – IN-DEPTH
ACCIDENT ANALYSIS**
